

Meridian Air Charter Adds Teterboro Based Bombardier Global Express to Fleet

TETERBORO, NJ, March 5, 2009

Meridian Air Charter, a private aviation services company, has recently added a Bombardier Global Express to its fleet of charter aircraft. The Global is a comprehensive business jet that offers optimum luxury and productivity. The aircraft is based in Teterboro, NJ (TEB) and is available for charter.

Bombardier Global aircraft are truly exceptional in every sense of the word. The consummate business jet is top class in one majestic sweep of beauty and performance, designed and created to allow world and business leaders alike to convene in a manner becoming to their station. These extraordinary long- and ultra-long-range business aircraft incorporate in their advanced technologies an uncommon elegance and synergy. Their handling ability is legendary — a true fusion of grace and power.

“This aircraft and its incredible range, among other capabilities, places Meridian in an entire new market. My charter sales team is thrilled to be a part of the new horizons this aircraft opens,” said Director of Charter Sales and Client Services, Andrew Ladouceur.

The grand exterior of the Global Express is painted Matterhorn white with a deep cobalt blue belly and gold accented striping. The earth toned interior of the spacious cabin is enriched with supple, camel-color, plush leather seats for 12, complimented by luminous walls and a cream colored headliner. Contrasting exquisite woodwork presents a golden brown and sienna feathered pattern with intricate inlay design. The custom made light indigo blue carpeting adds both style and comfort. The cabin is designed for optional privacy with sectional dividers. Passengers travel with ease as all seats are berthable and the aircraft offers two private lavatories with sinks. The in-flight service staff can provide passengers with the most lavish dining needs in the fully equipped galley. Travel time may be spent productively with data ports and an in-flight phone with fax and data capability, or the option of relaxing in the leather seats to enjoy monitoring the flight with Airshow®. The Global Express entertainment system includes a DVD-CD player in the main cabin.
