

## **Meridian Air Charter Adds Teterboro Based Falcon 900B**

**February 21, 2007, Teterboro, NJ** - Meridian Air Charter, the Teterboro, NJ based Private Aviation Services Company, is proud to announce the addition of a Falcon 900B to their fleet of charter aircraft. The Premium Large Cabin Falcon is based in Teterboro, NJ (TEB) and available for charter. Meridian Air Charter Director of Operations Tim Burke states, "The Falcon 900B offers versatility unlike any other corporate jet; we are thrilled to offer this aircraft to our charter customers." The Falcon 900B's 3 engine design gives it unique capabilities. It can perform safely where other corporate jets cannot. The increased margin of safety makes the Falcon 900B the clear choice for ski season and short field airports.

The interior is a modern Dassault design with grey leather seating for 12. A mid cabin bulkhead divider creates a separate stateroom with a private lavatory. The crew lavatory is located in the front of the aircraft creating maximum privacy for the rear cabin state room. As an added feature, passengers can see what the crew sees with the on board flight deck camera system.

The Falcon 900B has one of the largest cabins in its class. Dassault engineers meticulously built this stunning jet from the inside out with over 6 feet of headroom and over 33 feet in comfortable cabin length. Telephones, fax, SATCOM, data link, copier computer, video screens, television, custom executive desk and conference tables make every job easier. The Falcon cabin is divided into three separate seating areas to facilitate your dining and work needs. This unique floor plan provides the passenger with peace and quite for ultimate relaxation or productivity. Twenty four panoramic windows shed natural light throughout the cabin. A full-service galley at the front of the aircraft is equipped to prepare full course hot meals, complemented by fine wine and presented with custom made china and stemware.

This new aircraft is just another milestone in a busy year at Meridian. We opened our new terminal in January of 2006, our new 40,000 square foot hangar opened in February 2007 and our FBO, Meridian Teterboro returned to an independent after a successful 20 year relationship with Million Air. Meridian Teterboro now offers a complete suite of professional aviation services:

- Meridian Teterboro-FBO Services
- Meridian Jet Center-FAA authorized repair stations
- Meridian Air Charters
- Meridian Aircraft Managements
- Meridian Jet Center Detailings
