

Meridian Air Charter Adds Teterboro Based Gulfstream IV-SP

TETERBORO NJ, June 1, 2010

Meridian Air Charter, a private aviation services company, has recently added a Gulfstream IVSP to their fleet of charter aircraft. The premium large cabin Gulfstream is based in Teterboro, NJ (TEB) and is available for charter.

“We are very pleased with the addition of another Gulfstream IVSP to The Meridian Fleet. We are thrilled to offer our clients maximum flexibility in today’s global market with an aircraft of this caliber,” said Mike Moore, Meridian’s Director of Aviation Sales and Aircraft Management.

Configured comfortably for 13, the earth toned interior of the stand up cabin is enriched with soft, camel colored, plush, leather seats and a soft sable sofa; complimented by luminous walls and a cream colored headliner. The exquisite woodwork presents a soft brown, honey golden hue. The aft located private lavatory with sink is easily accessible and comfortable. The in flight service staff can accommodate passengers with the most lavish of dining needs in the fully equipped galley. Travel time may be spent efficiently with office apparatus and connectivity capability, or relaxingly in leather seats while peacefully monitoring the flight with Airshow®. The state- of- the-art entertainment system includes a DVD player, CD and in the main cabin.

The Gulfstream IV was introduced in 1985 and the Gulfstream IV-SP in 1993; this large-cabin business jet aircraft has earned an impressive record for technical performance, comfort, safety and reliability. On December 3, 2002, Gulfstream rolled out its 500th GIV aircraft officially ending the GIV-series.
