

## Meridian Jet Center Awarded Gulfstream G-V Series Certification

**TETERBORO, NJ, February 7, 2008**

General Aviation Flying Service, Inc., The parent company of Meridian Jet Center, Certified Repair Station #IMJR053F, has been awarded the Gulfstream G-V series as an addition to its Operation Specifications.

“The changes made, allow us to now support the entire Gulfstream Large Cabin, Jet Powered, product line,” said Pete Rawson, Meridian’s Chief Inspector.

The Company was originally issued an FAR part 145 Air Agency Certificate on February, 21, 1996, under D/B/A: Million Air Maintenance- Teterboro. The rating was issued with the Gulfstream G-1159 series, which are the G-II, G-IIB and G-III Models. The G-IV Model was added in the late 90’s. The Company renamed the Department in 2007 as Meridian Jet Center. The limited rating for the G-V as a series allows us to maintain the Models listed as G-V, G-500, and G-550. During the addition of the G-V, the Make/Model for the existing G-IV was revised to G-IV series. This incorporates the models G-IV, G-IV SP, G-300, G-350 and G-400.
